Citywide Slurry Seal Work Begins This Week

Coronado, CA (April 29, 2012) – The City of Coronado's annual slurry seal project was awarded to American Asphalt South, Inc. on March 21, 2012. This year approximately 1,430,100 square feet of City streets will receive a slurry seal surface treatment. The slurry seal is a thin mixture of fine sand, water and emulsified asphalt and is used to rejuvenate or revitalize old bituminous-wearing surfaces, improve traction, and help improve road visibility at night.

Construction Status (Updated 4/27/12): Construction began last week with the contractor doing crack filling and preparing the pavement for the slurry seal. The slurry seal operations will begin on Monday, April 30. The following table lists the streets and parking lot that will be slurry sealed and the scheduled date of that work:

STREET	FROM/TO	DATE OF SLURRY
A Avenue	First St to Second St	May 4 & 7
	Second St to Third St	May 7
	Third St to Fourth St	May 4
	Fourth St to Seventh St	May 2
	Seventh St to Eighth St	May 4
	Eighth St to Ynez Pl	May 1
Adella Avenue	Pomona Av to Maria Pl	May 3
	Maria Pl to Tenth St	May 2
	Tenth St to Ynez Pl	April 30
	Ynez Pl to Orange Av	May 1, 2, 3
B Avenue	First St to Seventh St	April 30
	Seventh St to Orange Av	May 7
C Avenue	First St to Fifth St	May 1
	Fifth St to Eighth St	May 4
	Eighth St to Ninth St	May 1
	Ninth St to Tenth St	May 5
	Tenth St to Orange Av	April 30
Churchill Place	Orange Avenue to Ocean Boulevard	May 3 & 4
Encino Row	G Avenue to F Avenue	May 3
Flora Avenue	Isabella Avenue to Churchill Place	May 7
Glorietta Boulevard	Pomona Av to Ynez Pl	May 4 & 7
	Ynez Pl to Orange Av	May 3 &7

Isabella Avenue	Orange Avenue to Ocean Boulevard	May 2 & 3
Loma Avenue	Orange Av to Star Park Cir.	April 30
	Star Park Cir. to Ocean Blvd	May 3
Maria Place	Adella Avenue to Pomona Avenue	April 30
Tenth Street	Orange Av to B Av	May 3
	B Av to Adella Av	May 4
	Adella Av to Pomona Av	May 3
Ynez Place	B Av to Adella Av	May 1, 2, 3
	Adella Av to Glorietta Blvd	May 4
PARKING LOTS		
Bradley Field Parking Lot (at the corner of Second Street and B Avenue)		May 7

Please note that the schedule is subject to change if any inclement weather occurs during the project. If a street is rescheduled, the table shown above will be adjusted as needed. Please check back here if your street's slurry seal is in question due to weather. The contractor will deliver door hangers to residences and businesses a minimum of three days prior to construction commencing on that street.

Currently, four streets are scheduled to be slurry sealed on trash collection day. These include Adella Avenue (from Pomona Avenue to Maria Place and from Ynez Place to Orange Avenue), Ynez Place (from B Avenue to Adella Avenue), Churchill (from Orange Avenue to Ocean Boulevard) and Tenth Street (from Orange Avenue to B Avenue and Adella Avenue to Glorietta Boulevard). EDCO is aware of this construction schedule and will pick up the trash before construction begins on that day. **If your trash collection day is the same day your street will be slurry sealed, please have your trash cans out by 6:00 am.**

The City asks that you observe all "No Parking" signs and that you drive carefully through the construction areas. The City apologizes for any inconvenience the construction may cause. Any questions about the project can be directed to the City's Engineering and Project Development Department at (619) 522-7383.
