**Subject: Monitoring Report for WDID 9 000003108 – January through March 2018**

Mr. Neill,

Please find attached the monthly flow monitoring report documentation for the period January 1 through March 31, 2018. The project has not discharged since the Notice of Applicability (NOA) was issued and as documented no flow has been recorded related to dewatering. Therefore, no samples or testing of groundwater was performed during the monitoring periods.

These reports are submitted in response to the Staff Enforcement Letter (SEL) dated April 13, 2018 related to violations for late self-reporting for January and February 2018 although no flow or discharge has taken place.

The monitoring report complies with requirements for ground water discharges from the Country Club/Parker Basin Area Storm Line Infiltration Project dewatering as approved in the NOA issued under General Order No. R9-2015-0013, NPDES No. CAG919003.

Any questions regarding monitoring and reporting should be directed to Katie Odiorne at [kodiorne@coronado.ca.us](mailto:kodiorne@coronado.ca.us) or she can be reached at 619.522.2424.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations [40 CFR 122.22(d)].
