

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

1	- Bike lanes on Ocean & Orange Ave-Bike & walk friendly spaces on Ocean-Bike lanes in front of shores.
2	(I have a first and second...) Work on inclusion, starting in the schools. Not everyone had the good fortune of being "born and raised in" or a "3rd generation" of Coronado yet we all live here now - schools and city are very insular. Reduce speed on 3rd and 4th and give tickets for altered exhaust, loud radios, and speeding on those streets.
3	* Police deter drivers from speeding through neighborhoods. *Schools - offer a homeschool option through the school. I don't want my kids on a computer!
4	1) Oppose the low income housing requirement and 2) set aside certain parking areas dedicated only for residents (and give residents decals for their cars)
5	1. Clean all the gunky gum off of sidewalk on Orange Ave! 2. Remove pepper trees!
6	1. Cost of housing 2. Air quality.
7	1. do not allow to buy a house and then close off the garage to prevent parking. My neighbor has three cars in front of a 40 foot lot and closed off the garage. Tandem parking usually doesn't work. So here is the real problem. 2. The parking is impossible in some neighborhoods. It will worsen in summer. Is there a way to build a public parking facility with tram to move people? 3. enforce bicycle rules. Bicyclist run across intersections without even thinking of stopping. What about the poor motorists? 4. Enforce the no biking, skateboarding, etc in the business district. Especially in summer with all the temporary tourists. It gets downright dangerous with bicycles splayed across the sidewalk, strollers, occ skate board, and pedestrians. Too much in a narrow spot.5. Keep the sidewalk dining after COVID.
8	ABOLISH THE PRIVILEGE CULTURE THAN IS A MAJOR DEFEAT TO DIVERSITY.
9	Accept responsibility for the state highways (relinquishment) within the city.
10	Address dangerous car activity. Slow speeds. Stop signs at every corner. Make driving so inconvenient that people will get out and walk or bike.
11	Address over-building & density issues (FAR).
12	Address the negative, "cold shoulder" attitudes toward people of diverse backgrounds held by many residents and some city employees. The school system is also permeated with materials and practices that show the employees at all levels need progressive training to avoid perpetuating harmful ideas about people perceived to be of lower socio-economic class. My family has experienced a lot of serious problems here compared to the other places we've lived. The most frustrating example to date: when my son was in TK here, two of his classmates harassed him and excluded him from using shared classroom equipment because he "doesn't have golden hair and blue eyes." This went on for several days, seemingly unnoticed by the teacher as I tried to coach him to handle the situation constructively when it arises. When I spoke to her, she brushed it off as no big deal and the problems continued until classes were suspended due to the pandemic. This is one of many times he has had to face this type of treatment in the Coronado school system and he's so young that it's disheartening. Your faculty and staff need extensive training to proactively recognize and address these issues. Some of his classroom materials (particularly those depicting slavery) were poorly thought out and taught in ways that introduce/reinforce stereotypes about Black people and African Americans among the student body.
13	Address the noise pollution provided by military @ 4am - 7 am. They blare stereos & wake me up everyday. How is this allowed?
14	Address the sewage problem sooner *** And immediately address the bridge - suicide challenge.
15	Address the storm water run off into the ocean, reduce the use of pesticides and address the rising sea levels. Educate the residents about the damage their actions can cause to the environment.
16	ADDRESS THE TRAFFIC ISSUES ON 3RD AND 4TH STREETS.
17	Adhere to the constitution and open all businesses fully. And fight the state housing construction mandate.
18	Affordable housing
19	Affordable housing for home ownership for middle class income families. Housing for 400,000\$ to \$650,000. We need to have nurses, police, firemen, service people to be able to offer to live in Coronada.
20	Affordable Local Commercial Services ie... Food, Entertainment
21	Affordable senior living environments
22	Allow ADUs to be built.
23	Allow me to build an ADU over my garage. I've ben trying for over a year

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

24	ALLOW ONE (OR UPTO) / 5 DAY RENTAL PER YEAR BEFORE IMPOSING 26 DAY MIN. REASON: IRS ALLOWS < / 5 DAYS WITHOUT TAXES; MOST FOLKS WHO ISNT RENT (EVEN FOR >26 DAYS) LIE TO IRS -- THE CURRENT POLICY HELPING YOUR RESIDENTS CONFORM TO LAW. IF WE ALLOWED EACH RESIDENCE A 15 DAY GRACE PERIOD, FOLLOWED BY THE 26 DAY LIMIT, YOU'LL ALLOW HOMEOWNERS TO BETTER THEIR FINANCIAL POSITION, COMPLY W/ LAW, AND STILL LIMIT SHORT TERM RENTALS SIGNIFICANTLY. ALSO NEED MORE COMPETITION FOR INTERNET - FIBER? IN THE CAYS?
25	Almost perfect , except rude tourists
26	Attract more doctors and health specialists. (Just a throw in - keep the skateboards off Orange Ave sidewalks)
27	Avoid splitting one family lots into 3 or 4 houses.
28	Be more open with residents about it's major capital expense projects.
29	Be more vocal about pollution from the Tijuana River.
30	Be more welcoming to the folks that live here that are not in the highest tax bracket... I have friends across the spectrum from low earners to the highest of high and I can tell you there is a vast difference in how they feel like they fit in, and how much their opinion is valued. I would also like to see a stronger crack down on drug related drug related crimes. It seems like they are on the rise, and that there is very little seriousness taken to drug use, or distribution on the Island, and we are feeling more on more of the impact as addiction levels are hitting a high from COVID.
31	Be transparent and honest in its consideration of high expense activities, such as the golf course sewage project.
32	Beautify the median strip along Silver Strand Blvd
33	Better control of base traffic and access to San Diego.
34	Better cooperation with local navy.
35	Better infrastructure.
36	Better long term planning. Mistakes have been made with, for example, Rt 75 going to the city. Personal political ambitions strongly influenced our initial response to the pandemic and were an embarrassment. Parking is terrible and nothing is planned to make it better. Too much short term reactionary management.
37	Better parking for residents during the summer months, or more options coming from the Cays. It's also difficult to shop and dine with the current 2 hour limits in many spots.
38	Better program in senior center. Less traffic and lower speed 3rd 4th streets.
39	Better quality grocery stores.
40	Better respect for minorities by police and parking enforcement
41	Better street design in residential areas and more parking options in the business areas
42	Better support ADU options
43	BIKE LANE ON ORANGE AVE., INSTALL SOME TESLA SUPERCHARGERS, RE-START SUMMER CONCERTS IN THE PARK.
44	Bike lanes, especially on orange & to cross 3rd & 4th, maybe overhead pass over 3rd, 4th but need a lot more bike lanes all over.
45	Bike way in the beach of coronado hotel all the way to the base , put more sculptures , promote artists from all over the world
46	BRING BACK THE BRIDGE TOLL \$ 2 MINIMUM. \$.25 box of stamps for the toll for residents and military personnel and this will eliminate the people taking shortcuts down to the South
47	Build a multi-use path on the beach from The Del to Dog Beach/Sunset Park
48	Bury the power lines.
49	Bury the powerlines that run through the city.
50	Bury utility lines.
51	Check over-building/single families that in fact are multi - rentals.
52	Check the timing of the left turn light @ 6th & Orange. *Help support lambs theater if possible!
53	Clean Ocean
54	clean up the ocean so swimming will be safe

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

55	Communicate more.
56	Continue to allow a free flow of ideas in your city council meetings.
57	continue to be proactive about street cleaning
58	Continue to control the pandemic and get back to normal life.
59	Continue to preserve the residential character by advocating for home owners and long-term renters as well as keeping the schools military friendly, while also limiting the ability of developers to drive costs with high end housing geared toward tourists and temporary residents.
60	continue to support health and programs
61	Control density
62	Control density of development
63	control housing density
64	Control over cyclists
65	Control the increasing density of housing. Stop the razing of cottages and their replacement with multi unit or large structures that change the residential culture of the island.
66	Control the sewage flow from Tijuana
67	control traffic
68	Coronado is becoming more and more expensive. It seems we welcome the super rich and small businesses have no chance to survive. Home prices go up, rent goes up. It's making it difficult to imagine a future for us here.
69	Cost of living.
70	Create opportunities and a welcoming environment for all people. Be less snobby.
71	Creating opportunities for adults, young adults and children to get involved in community events as a way to get to know one another.
72	Deal with the complete disregard the Navy has for the City. Auto traffic during early hours and flights of aircraft increasingly more over the top of our residential neighborhoods. The Navy is not a good neighbor. This does not mean we dislike the Navy...we have served in it and respect it. Just need the Navy to do more proactive efforts to limit its impact on our town. The recent "back room" deal the Navy pulled off to delay the relinquishment acceptance of State Routes 75 and 282 from Caltrans is a good example of the insincerity they bring to all matters "Coronado." Simply put they are not our friends. They need to drive, fly and BE neighborly.
73	Decrease all the street parking, esp near alleys and corners. Makes intersections/street crossings very dangerous. Also, prevent overcrowding due to overbuilding.
74	Decrease tourism.
75	Defeat the SANDAG mandatory housing increase forcing Coronado to add more than 1k homes to an already crowded and limited space; continue work to get the federal government to prevent Tijuana raw sewage from being dumped in the ocean and creating toxic health issues on IB and Coronado beaches.
76	Develop an action plan regarding sea-level rise.
77	Divert traffic off orange Ave! Make a left turn lane from the bridge to Glorietta Blvd. or Pomona - During heavy traffic times you can't turn left off of 3rd on to orange without waiting for several light changes.
78	Do everything in there power to oppose the new housing requirement
79	Do not allow bike riding in front of The Shores or the Coronado Hotel and more policing of bikes on sidewalks.
80	Do not build low income housing across the street from the beach on Hwy 75!
81	Do not build low income housing here
82	Do not increase density of housing.
83	Do NOT increase the density of housing
84	Don't allow such huge residential structures to be built. Single family homes are enormous now!! Don't promote tourism through "Discover Coronado".
85	Don't change!
86	Don't increase density any more than it already is.
87	Don't increase mass housing.
88	don't know It is very good now

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

89	Don't permit new restaurants that will have bands or live entertainment in areas that are also residential
90	Downtown sidewalks free of bikes, skateboards and etc!
91	Downtown traffic on the weekends. Affordable housing.
92	Drastically reduce traffic
93	Educate the police in handling residents, visitors, and students who come from diverse ethnic or economic backgrounds.
94	Elderly care and housing services
95	Eliminate Loud Exhaust sounds from cars, trucks and motorcycles.
96	Eliminate naval base traffic and noise on 5th street
97	Eliminate residential over-development that is destroying the Coronado community/image; so not allow large ugly multi-family buildings that replace older single residences that have yards/grass. It is a plague by christian rice and his goons to please the wealthy non-resident developers who have no interest in preserving the Coronado heritage.
98	eliminate the threat of ocean and beach contamination from mexico
99	Encourage new businesses
100	Encourage quality schools; insist that they fully open and that teachers worry more about really educating (not indoctrinating) students. In fact, more attention should be given to providing a good community for residents; currently, all emphasis seems to be on making Coronado an appealing tourist destination.
101	Enforce "No left turns" on San Luis Rey Ave.
102	Enforce and control the traffic and related parking year around. Stop lights for better access to cross 3rd and 4th other than Orange Ave. Take better care of residents vs visitors.
103	ENFORCE CODE VIOLATIONS (PARKING RV VEHICLES, CONTAINERS ETC PERMANENTLY KEPT IN BACK LANES, ILLEGAL RENTALS, ETC).
104	Enforce current city codes without my needing to go to war with my neighbor (30 foot high bamboo; 8 foot fence not permitted)
105	enforce current laws/rules (re: mask enforcement regardless of vaccination statistics)
106	Enforce existing codes and laws
107	Enforce existing motorcycle noise ordinances--illegally modified mufflers & open pipes make our lives ****. No one cares.
108	Enforce jaywalking.
109	Enforce laws including traffic, no smoking, no biking on sidewalk, no dogs on the beach except the dog beach, and noise
110	enforce no bike riding on boardwalk in front of Coronado Shores
111	ENFORCE NOISE ORDNANCES @ NIGHT.
112	enforce off street parking regulations ,
113	Enforce parking laws (especially near the beach parking on corners forcing drivers to enter the intersection to see if there is any oncoming cross traffic before crossing) and walking against the stop lights (10th and orange)
114	enforce quiet hours in neighborhoods
115	Enforce speed and noise rules on silver strand.
116	Enforce speed limits on orange and motorcycle noise pollution. Somehow make STOP signs more prominent so vehicles STOP at STOP signs, especially on residential streets.
117	Enforce speed, noise, motorcycles with modified exhaust on 3rd St. Fight SANDAG's requirement for more housing on Coronado. Most of the questions asked in the survey would go to rock bottom replies if 1000 more units added to Coronado!
118	enforce speeding/parking violations in residential areas (SOOO hard to see at some intersections!)
119	Enforce the 95 decibel limit on vehicles. The loud obnoxious mufflers is noise pollution and disruptive to quality of life
120	Enforce the existing laws, especially on the beaches and public spaces and specifically in regard to non-residents who regularly ignore our local laws (littering, graffiti, loud obnoxious behavior, urinating in public, offensive "music" and general disrespect for others.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

121	Enforce the existing walk your wheels codes in business district and shores beach path. I have been almost knocked down in both those locations
122	Enforce the NO wheels rules on Orange Avenue and the Paseo boardwalk
123	enforce the traffic laws on Ocean- cars, bikes and people jay walking
124	Enforce traffic flow restrictions(street access time limits) and excessive speed of base commuters
125	Enforce traffic laws (speeding, illegal parking and bicyclists).
126	Enforce traffic laws for pedestrians who cross main streets when its not their turn. Enforce traffic laws for bikers who ride side by side on roads - especially large bike gronges.
127	Enforce traffic speed and noise from speeding vehicles. Police does not enforce this is the periphery like Alameda Blvd, 10th st etc.
128	Enforce traffic violations/speeding. Traffic is terrible on this island
129	Enforce vacation rental and add further restrictions/taxes for 2nd homes that are degrading the residential community. Walking through neighborhoods too many vacant homes.
130	Enforcement of bikes on sidewalks downtown
131	Even though it's certainly not the majority of residents, there is a segment of our city who promote an image of privilege and entitlement. As in any town they seem to have the loudest and most persistent voices. They seem to be the most influential with the decision makers. Consequently, our city is being run more to cater to tourism than to its residents. I think that exclusivity has very much tarnished the image of Coronado as a place to line, in favor of a place to merely visit.
132	Facilitate hi-speed fiber internet installation already ! Our island community is literally not up to speed with the rest of our country's modern internet infrastructure.
133	Fair and expedient public service in regard to tree removal
134	Federal govt. to work with Mexico for a clean ocean. Coronado, too!
135	Fight densification
136	Fight the housing issue hat SANDAG has caused
137	Fight the over-reach SANDAG assignment of 900 low income units. It's ridiculous.
138	Finally, solve the horrendous traffic problems on Third and Fourth streets, and the summertime traffic problems on Orange Avenue
139	Find a way to address signaling at Orange & 4th for pedestrians/cyclists. Very dangerous intersection. Increase no parking areas at intersections in all areas of the city. Visibility for drivers and cyclists is very poor at many locations throughout town. A child was hit 3 weeks at at 10th & E where it is nearly impossible to see cars or cyclists at intersections because SUVs, vans, and other high profile vehicles are allowed to park so close to the intersection of these residential streets. Put in place speed bumps and other mitigation efforts to slow down drivers commuting to and from the base gates through residential areas.
140	Find a way to ease weekend and tourist traffic
141	Finding a solution to the decades old problem of too much traffic, especially from the base.
142	Fix 3rd and 4th, and make is to people can cross it.
143	Fix sidewalks and streets, please.
144	Fix the sewage problem from the TJ river, go after the Feds
145	Fix the sewage run off that closes our beaches, more open swim hours at the community center
146	Fix the sidewalks
147	Fix the traffic problems.
148	Fix the uneven areas of the sidewalks to prevent a tripping hazard
149	Free bus down Orange Avenue
150	Get a real grocery store! Improved restaurant options!
151	Get all bicycles off the sidewalks!! Everywhere and enforce it!
152	Get control over dogs r pets. Make sure they use leash and people should walk with their dogs close to them not all the way on the walkway.
153	Get more people on bikes and less in cars. Address the ocean situation with IB and Mexico.
154	Get our kids back in school full time!!!
155	Get rid of all the tourists!!!!!!!!!!!!

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

156	Get rid of cross walks on orange ave that do not have lights-make cross only signs at lights and stop people from crossing at poor visibility corners
157	Get rid of fireworks on the bay and whole island - terrible pollution.
158	Get rid of the speed bumps on Pomona/ Glorietta. Add some kind of bridge or tunnel for Pomona walkers, bikers to cross 75. Get rid of toll booth area on 75. When are you going to add more E-car charging stations?
159	Get the kids back to school ASAP!!
160	Get the sewage issue at the beach fixed. Get suicide bars up on the bridge. Enough lives lost.
161	Get Tourism under control It seems that the Hotel Del owns the city. That they were allowed to build a new convention center and build a circus of tourists overwhelming our city is appalling. The xmas before COVID, my husband and I went for a walk to see the lights at the Del. The place was overrun. It felt like the BoardWalk in Mission Beach. The direction the city seems to have taken is getting money at the cost of quality of life of its Residents. My husband and I have a long history in Coronado. He was born here and My Grandmother graduated from CHS in 1934. The City needs to balance their goals to match residents desires for quality of life. The facilities and services that we have from the money we received from Tourism may not be everything that residents want. I remember having poorer facilities but a sense of our community being built for residents not for money from tourists.
162	Give more tickets for speeding on residential streets.
163	Good night lighting AND a safer crossing for pedestrians and the cars/ bikes at the junction of Olive ave-E Ave-8th Street. We live close to this junction and cross frequently, cars whiz thru this junction and hardly ever stop or slow for pedestrians because it is not a highly visible junction if one is unfamiliar with the area.
164	Have a good size fenced in dog park in walking distance in the village (main residential) area.
165	have a strong, definitive response to minority children and other residents being discriminated against- to make this place more welcoming to all people
166	Have freq bus throughout year, to traffic by tourists decrease.
167	Have year round regular bus service from The Cays to the Village with multiple stops at each end
168	Heavy traffic to the bridge from 2:30 pm to 6 pm.
169	helicopter and airplane noise
170	Help me be active outside
171	I appreciate the city-funded commuter ferry rides--thank you. I think pedestrians in crosswalks with signals should be given a head start of a few seconds before the traffic light turns green. I've seen this done elsewhere, and it might work well here.
172	I believe Coronado doesn't have a center, the Mayor doesn't take the time to walk around the island or be seen by the residents.
173	I cannot think of anything; I personally do not care for California, however, I love living in Coronado. It is just the perfect place to live.
174	I don't think there is anything that they could do that isn't being done. Keep up the great job!!
175	I find the emphasis on attracting visitors to Orange Avenue businesses is fine for visitors and inhibiting for residents. The thought of spending time on Orange Avenue, going to businesses or restaurants, on weekends and holidays is not inviting to me, especially over this past year when so many people did not wear masks while walking around. I also did not support our mayor's drive to keep all businesses open when recommendations from health agencies were not advising that.
176	I have never lived anywhere else where at every town you have to worry about a rent hike if you call to have something fixed, or 10/ 12 mos. have gone by. You spent several pages asking about diversity and fairness - but there is no financial diversity in Coronado - which means eventually there also won't be diversity of other kinds. (and i am not talking ethnic/ color diversity - i am talking: artists, musicians, teachers, plumbers, etc. can't afford to live here.)
177	I love Coronado. It is like a paradise to live. But if I would suggest something, I would suggest improving the bike lane between Coronado and Coronado Cays.
178	I think partial nudity, such as thong bikinis, should not be allowed at the beach. Many men struggle to overcome pornographic images and children do not need to be exposed to partial nudity. Let's keep Coronado beach family friendly.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

179	I wish the beaches were more clean and there weren't as many houses as there are.
180	Impose a 1000 PM noise curfew
181	Improve access to to and facilities at the beach such as resident only parking, boardwalk for safely running and biking, etc.
182	-Improve housing availability options. Allow ADUs to have fewer restrictions. -Note that a large number of Tijuana drug cartel affiliates have been moving into Coronado. This has resulted in a significant population shift. Many of these individuals & families are not U.S. citizens & do not pay taxes. This needs to be investigated on a large scale.
183	improve mid afternoon
184	Improve parking.
185	Improve parking.
186	Improve the schools, teachers and administrators need to provide appropriate educational opportunities to all students. Opportunities are severely limited. The city council should only help schools if the funds go directly to students.
187	Improve the traffic/pedestrian/parking relationship on Ocean Blvd. like what has happened on first street where there is plenty of room for bikes, parked vehicles and people who wish to walk. The beach is our #1 draw for tourist and our primary resource for community enjoyment, yet nothing has been done to improve the flow of traffic, allow for bikes and pedestrians for many years. The amount of traffic that goes to the base on Ocean needs to have an alternative because the road is too narrow for access - again compared to the other access points on 1st street or 3rd and 4th. This is an important problem that never gets to the top of the agenda for the city and offers the most long term benefit if thought through carefully now.
188	improve traffic congestion
189	Improve traffic flow
190	Improved Support for Small Businesses and local economy
191	increase bicycle safety
192	Increase city funding for Lamb's players theater and generally promote the performing arts.
193	Increase diversity.
194	Increase maintenance of sidewalks! Four months ago I tripped while walking in Coronado and sustained a concussion, a fractured clavicle and fractured lumbar vertebra. As we discuss expenditures to improve our community (and to keep residents safe). Please address our uneven, hazardous sidewalks. If their is a current maintenance program, it is not sufficient!
195	Increase police protection with the influx of border crossings
196	Increased enforcement of existing laws, rules, and regulations. Visitors should see Coronado as unfriendly to scofflaws.
197	Innovate on childrens activities
198	Install a small restroom and outdoor shower between the Shores public ramp going to the public beach.Ch 19: Turn down the volume. It is louder than all other channels, and very annoying while channel surfing, especially at night. On Ch 19 guests, such as the exercise lady, give her a lapel mike. Her current audio is bad.Ch 19: Continue to show City Council meetings over-and-over.Ch 19: More interesting Mario tennis, and less boring, old lady exercises. Cut grass on Orange half as often, and use the funds saved for something more important.Make the sidewalk on Ocean Blvd wider. Why not bulldoze/push the rocks back 3 feet and repour the concrete sidewalk.
199	Install a stop light at 3rd street & Alameda.
200	install speed bumps on Alameda Blvd and add Stop Signs
201	Install video surveillance cameras around town to reduce property crimes like bicycle theft and packages being stolen. Enforce the speed limits on 3rd, 4th, Alameda and other speed zones.
202	I've seen a lot of speeding vehicles that don't stop at stop signs on residential streets in Coronado and I have seen a lot of near misses for peds and cyclists. I have also witnessed vehicles driving the wrong way onto 3rd and 4th Streets. Therefore the single most important thing to me and my family is vehicular safety, whether it's speed control or more oversight.
203	KEEP BEACHES CLEAN.
204	Keep doing what you are doing! Kudos to the Mayor and City Council

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

205	Keep fighting against adding 1000 new living spaces as it is already crowded here and we need to keep the small town classy atmosphere. My family has been on Coronado since 1961, i recently built a house here so will live out my life on Coronado. I am 58. I would like to give plus for (a) new black top on roads, (b) hotel del restoration; (c) priority of arts with flags on OrangeI recommend the following: (a) get powerlines underground--will be big problem if we have earthquake; (b) carefully monitor the traffic bottleneck that will occur by the new del entrance as we will have 2 traffic lights very close together; (c) advertise in Eagle when streets will be swept so we can move our cars/add street sweep to ally's as there is a lot of dust and debris in ally's (d) help to facilitate getting a female on the City Council---the council has been male dominated for many years and it would be ideal to have some gender diversity. Keep doing the great job you
206	KEEP NAVY TRAFFIC OFF OUR RESIDENTIAL STREETS ENCOURAGE THE NAVY TO "FLY FRIENDLY" AS WE ALL CAN SHARE THIS SPACE AND RESPECT CORONADO'S SAFETY AND AIR QUALITY. MAYBE PUT THE TOLL BACK ON THE BRIDE TO DISCOURAGE PASSING THROUGH TO AVOID THE FREEWAY SOUTH AND ENCOURAGE NAVY WORKERS TO CARPOOL.
207	Keep population density LOW
208	Keep restricting short term rentals (or further restrict) to keep housing affordable for active duty families that want to live & work here.
209	Keep the Ferry Landing as it is with just some quality updates.
210	Keep the historical charm of the Island by keeping existing properties and not over building.
211	LAW ENFORCEMENT FOR BOTH TOURIST AND RESIDENTS. Bicycle enforcement on business district sidewalks AND enforce NO SMOKING in public spaces. Too often, we witness law enforcement turning their heads pretending not to see this. As a tax payer, I expect the laws to be enforced, we the public, should not have to be put in position to say something, it is after all part of where my tax \$ goes.
212	Law enforcement.
213	Less congestion, overcrowded
214	LESS CONSTRUCTION ON HOMES.
215	Less density
216	Lighting on residential streets
217	Limit fishing times on the ferry landing pier, because at night there is little or no security patrol. Thank
218	limit building billy boxes
219	Limit density
220	limit growth, especially any high rise
221	Limit housing density
222	Limit housing density - already crowded (impacts traffic, noise, pollution).
223	Limit increasing residential density
224	Limit more residences
225	Limit or eliminate the state's pursuit of low income housing based on a flawed formula that was accepted by SANDAG. Also, it is very important to work with the Federal Government in reducing the Tijuana sewage water issue.
226	Limit oversized buildings on lots, limit overdevelopment by hotels, decrease size and height of buildings
227	limit permit to build, traffic is terrible, and security is worsen
228	Limit residential new construction to that adds new housing units. The city is far too crowded now and this has exacerbated the traffic problems.
229	Limit the crowding
230	Limit the number of low income housing proposed by the state.
231	limit traffic
232	Limits housing impacts.
233	Listen
234	Listen to the silent majority and not just loud voices
235	Location of low income housing on strand is absurd. What avenues is city pursuing to stop mandated housing increase.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

236	Low cost mental health available! Spread the kindness Rep "Kindness is contagious." God bless all who service Coronado, for.
237	LOW HOUSING DENSITY.
238	lower cost grocery store and green space for homes. So much concrete around homes feels like a concrete jungle. Rent has gone up \$1,000+ in just the past 2 years.
239	Lower cost housing
240	Lower cost of WIFI (High speed).
241	Lower housing costs, cost of living.
242	Lower speed limit from first St to Coroals Shores.
243	Lower the cost of living; police enforcement (petty crime is increasing but also during COVID, there were restaurants blatantly operating during shut down that were ignored). Figure out better traffic flows.
244	Lower the density in residential areas.
245	Lower the FAR
246	Lower the noise factor! between navy aircraft, motorcycles, pick-up trucks, souped up cars. loud music coming from cars, Coronado is the noisiest place I have lived which includes areas in eight different states, and three other countries. Cheers to the town's efforts in banning electric powered leaf blowers.
247	Maintain and improve the small town essence of the village. Resist tourist trap type businesses and maintain quality establishments that both the residents and tourists want and need. Avoid the type businesses that walk out of their venues and stop people on the sidewalks. Focus on the quality of the community with city plans not business pressures that will de-value our city in the long term.
248	Maintain community safety and small town feel.
249	maintain current level of single family homes so our neighborhoods don't become all multiple family dwellings: condos, apartments, etc.
250	Maintain high standards of care and cleanliness in public spaces such as beaches and parks (already great).
251	Maintain safety.
252	Maintain single family home zoning.
253	Maintain the beach and bay parks and access for an.
254	Maintain the beautiful trees and front yard gardens and Orange Ave beauty flowers and nature! And keep the island clean of trash and being dirty! And, hard to say, but keeping out the homeless!!
255	Maintain the current population.
256	Maintain the police at the current level as well as the fire dept
257	Maintain the small town charm Coronado has always had. I was born here in 1975, graduated from CHS and now live here with my husband.
258	Maintaining the charm and small town feel that Coronado has always had. We dont need to be pacific beach or any other high tourist area. We need to realize that people came here for the charm of a small beach town. This is not Disneyland. We dont need for all access to all areas.
259	maintaining the small town quality along with a casual atmosphere
260	Make artist studio space available and affordable to many CORONADO artists (Visual artists as well as writers, dancers, musicians, performers included) like Spanish Village in Balboa Park (Supported by City of San Diego) in exchange for being open to public interaction and some artists teaching or performing etc. - creating a vibrant art space/location. I believe the artists are Juried to be chosen and some studios are shared, with long term agreements to allow artists to develop businesses. (Not a select few or only transitory artists in residence.) If I were selected to be one of these artists I would be committed to a "open house night" one night a week like Liberty Station has created that helps all businesses thrive. - Our Community and Beautiful Location makes us unique!
261	Make it law and enforce single file bike riding "groups" of two or more. Making Coronado bike friendly (Blairs doing) has been a disaster.
262	Make it more affordable
263	Make mask wearing a personal choice!!
264	Make masks mandatory, monitor safe public distance rules oversee health recommendations during pandemic

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

265	Make more affordable housing. As a military member with a working spouse, renting suitable house is increasingly more expensive and unattainable.
266	make orange avenue one lane going and one lane coming
267	Make the crossing between San Luis Rey and Guadalupe a 4-way stop
268	Make the free shuttle year round
269	Make walking and using a wheelchair feel safer in Coronado--which could include better illumination, dogs all being on leashes, smoother sidewalks in areas where it's too dark to see the ground at night, cutting back peoples' plants from the sidewalk, doing something to make walking across 3rd at Orange on the bridge side make cars see pedestrians and yield the right of way, getting more green space or open public spaces as the parks seem to keep getting smaller over the years, perhaps a bike lane instead of parking on one side of Orange and public areas to sit on the other side. Some of those particulars the city couldn't do, but privileging pedestrians over cars would be lovely.
270	Making the street crossings on Orange safer for both walking and biking. 2 lanes do not stop.
271	Manage cost of living for essential services
272	Masks during pandemic; traffic management
273	Minimize changes!
274	mitigate daily military workers from driving on non major artery exit streets in town
275	Monitor base traffic intersection of 2nd, J & palm is dangerous motorists from base blow right through the YIELD signs painted on the street.
276	Monitor traffic speed and safety on main streets.
277	More affordable housing
278	More affordable housing
279	More affordable housing for citizens.
280	More bike lanes
281	More bike lanes and slowing traffic on Palm and Olive.
282	More community events like 92118 day
283	MORE DEDICATED (AND PAINTED) BIKE LANES, PARTICULARLY ON MAJOR STREETS (eg, ORANGE AVE). If i could have a second input, it would be to regulate new home and exterior remodeling to preserve the town's look. There are too many cookie-cutter mega-houses from the same few architects, each one replacing a more modest cottage bungalow. In 15 years, Coronado will cease to be a many - family town entirely.
284	More designated (painted/push-button) crosswalks along Orange ave.
285	More enforcement by Coronado PD for speeding on residential streets, disregard for STOP signs, all riding on sidewalks in city commercial area.
286	More flower beds, burry utility poles
287	More inclusive engagement and celebration of Coronado's diverse community; increase representation in community leaders, government, and decision-makers to include more women, younger members, those with a variety of racial/ethnic backgrounds, and a multitude of socio-economic statuses to generate a stronger investment in the fabric of our community.
288	more lighting on the residential streets in coronado
289	more lights on residential streets.
290	More parking more control over workers and especially construction workers from parking on our streets.
291	More parking!
292	More places to sit for sharing conversation or resting while walking. More picnic tables in park, by library and bay side.
293	More police patrols in the cays
294	more restaurants where residents can eat healthy foods at an affordable price.
295	More restrictive residential zoning/no billy boxes/no houses stacked 3 deep on a lot
296	More street lights on residential areas.
297	More strongly enforce issues RE: barking dogs.
298	More traffic enforcement of vehicles driving through red lights when pedestrians are present. Have been nearly hit by cars many times at the intersection of 4th and Orange, and Pomona and Orange.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

299	more traffic enforcement on 3rd & 4th!
300	more volunteer opportunities to reach out and help underprivileged populations in San Diego county
301	Municipal fiber internet
302	N Island traffic.
303	N/A.
304	Na
305	No sewage in the bay.
306	Not allow NIMBYs to veto every effort by the City to improve public spaces.
307	Not allowing CalTrans to do night work. I am exhausted and can't believe night work is permitted here. They were cutting concrete, jack hammering and pouring gravel using heavy equipment ALL NIGHT for weeks (Hotel Del Development project). I can't work, I can't think, and don't feel comfortable driving in this state of exhaustion and am feeling sick from it, and the city is offering me no help. I have literally made phone call after phone call. I am truly EXHAUSTED. When did sleep deprivation become ok? Does Caltrans lobby politicians here? Why would taking away hundreds of people's ability to sleep be ok even for one night, let alone for weeks? Would you want your family to experience this? Cigarette Smoke in Condominiums should be outlawed. Since I moved into La Playa Tower in Coronado Shores I have had to breathe in second-hand smoke on a daily basis. My sweet neighbor smokes a carton of cigarettes a week and the toxic gasses come into my condominium every day throughout the day. It is as if I took of smoking. I often time get migraines and upset stomach. I always assumed clean air would be my right, but it really isn't. My neighbor will decide on whether or not I get cancer, stroke etc, not me.
308	Not allowing more housing.
309	Not sell out the city to visitors and the businesses who cater to bring more of them here.
310	Not so much on MY quality of life, but more of a "if I could fix one thing now, I would..." repair 3rd and 4th St. asphalt and work closely with NASNI Leadership as well as city planners on optimizing traffic flow (i.e. timing and/or technology improvements of traffic lights). I am aware that this collaboration has gone on in the past, but not sure when the last time this issue has been closely looked at. I might add one thing...the re-asphalting of many of the streets has been a good thing, but as mentioned, there are still some pretty poor road conditions on some of our streets (particularly 3rd and 4th).
311	Not to increase density of housing.
312	nothing
313	Nothing comes to mind
314	Nothing I am blessed by living here in Coronado.
315	NOTHING.
316	Offer more diverse activities at Ferry Landing & in public spaces, less restaurants.
317	Open a Bay Side Entrance to the Silver Strand State Beach at Coronado Bay Road so that small watercraft enthusiasts may access the bay. The City of Coronado should immediately begin negotiations with the State Parks and the Lowes Hotel to provide this public access. The State Park on the bay side has existing restrooms, picnic tables, Aquatic Center and lifeguards and is not being used effectively because of the difficulty accessing the area (the public must park on the ocean side of Hwy 75 and walk through tunnels to the bay side...very difficult when hauling small watercraft).
318	Open back up without restrictions
319	Oppose building low- income housing at the smart + final location oppose the addition of higher - density housing in Coronado. The island is already too crowded and parking is non existent on streets.
320	Oppose State mandate for additional affordable housing in Coronado.
321	Parking improved.
322	Parking issues!
323	Pick up the trash. Outside Lobster West is a mess every morning without fail. The trash comes from their restaurant, they should be fined for not cleaning up before they close each night. Also, trash around Coronado has never been so bad. I pick up trash on my walks and at the beach. This is an area that Coronado is not doing a very good job with.
324	Plant trees on Alameda between 3rd & 2nd streets to hide the vacant weed-filled gulch/ lot.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

325	Please reconsider adding a pedestrian/ bike path on the sand next to the roads on Ocean Blvd. It could start as the temporary material for better handicap access, but it would benefit everyone. And if well-received, then transition to a permanent path that is divided for bikes and pedestrians. It would solve the sidewalk discussion on Ocean Blvd!! Thank you.
326	Police enforce no cycling, Rollerblading, etc. or sidewalks.
327	Population - overcrowding.
328	Posting of community events for active & non active seniors.
329	preserve / improve the natural environment
330	Preserve the Historical value of the Community
331	Preserve urban density
332	Pressure the Navy assume responsibility for housing their employees.
333	Prevent excessive growth of housing.
334	prevent more residential development
335	prevent that building of affordable housing move being forced upon us
336	Prohibit fires on the beach except for North Beach.
337	promote more indoor recreational activities for kids and teens
338	Prosecute loud, fast, motorists that fail to obey traffic laws.
339	Protect the original housing that makes Coronado unique and quaint. Stop giving in to builders and realtors and big money.
340	Provide affordable housing & processing ADU permit submittals.
341	Provide affordable housing and grocery options
342	Provide clear responsibility/ownership for residential noise enforcement. Enforce leash laws for dogs at Tideland park.
343	Provide more affordable housing- both to buy & rent.
344	Provide more affordable housing for military families.
345	Provide pedestrian and bicycle access across 3d and 4th Sts the length of the city.
346	Provide public and more affordable housing
347	Pursue a policy of measured growth. Don't try to freeze the City of Coronado in time, the results will be disastrous.
348	Put a stop sign or a light at 9th and Orange. Also (2 things) fight Sandag on the increase in housing.
349	Put emphasis on stopping Tijuana River runoff to city beaches
350	put stop signs on Olive and Palm at interval intersections--right now it is dangerous
351	Put walls up along 3rd and 4th street to help with the constant LOUD traffic noise to and from the base. The motorcycles are the worse.
352	Recall Gavin Newsolini so we can get back to living our lives and not having our business close due to his Dictator edicts.
353	Reduce base (NASNI) commuter traffic noise.
354	Reduce car dependency: test more one-way streets, limit opportunities for cars to cross Orange (make cars drive around town center to get to the other side), remove parking from Orange Ave., and reduce free public parking on other streets in the downtown area, reduce amount of public space surrendered to cars, reduce over-paved areas like Olive, promote non-car modes of transport, develop network of protected bike lanes, increase opportunities for bikes and pedestrians to cross Orange safely, make streets and transitions smoother for bikes, increase bike parking areas
355	Reduce density of housing.
356	Reduce development - too much tradffic and too many people already
357	reduce focus on tourism and focus on full time residents.
358	Reduce home density
359	REDUCE NOISE ON 3RD & 4TH STREETS. BEING USED AS RACE TRACKS! NOISE MAINLY DUE TO SHOW - OFF PERSONALITY. ALSO, INSTALL BRIDGE CROSSING ON ORANGE 3RD/ 4TH STREETS. VERY DANGEROUS TO CROSS!
360	Reduce noise pollution. Prohibit plastic carons - it's terrible for environment! Reduce light pollution at night time.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

361	Reduce or eliminate traffic backup (left turns on side streets) from 4th Street coming on Island. Dangerous. Allow for expansion of legal over garage units to provide additional family housing opportunities. Pressure Spectrum to improve their system infrastructure.
362	Reduce overdevelopment of the city and not allowing increases in number of dwelling units
363	Reduce property taxes.
364	Reduce short term rentals.
365	Reduce siren volumes on Ambulances and fire trucks - absolutely the most disturbing sirens of any city I have ever been to, domestically and internationally. Totally unnecessary to hear a siren six blocks away-
366	Reduce splitting residential lots.
367	Reduce the amount of traffic and strongly enforce speed and noise limits.
368	Reduce the density, way too crowded!
369	Reduce the noise! Loud car exhaust systems; loud live music at open air venues, etc.
370	Reduce traffic
371	Reduce traffic and traffic noise in Silver Strand
372	Reduce traffic congestion and number of daily trips from navy personnel traveling to the bases.
373	Reduce traffic congestion and over-development.
374	Reduce traffic congestion, including vehicle traffic threats to bicyclists. Transiting Orange Ave from First Street to the Shores takes way too much time. Having been fortunate to live here over 40 years, I have experienced at least 10 near miss encounters with vehicles in 2020 with vehicles at fault. That's not been the norm. It's dangerous to ride you bike anymore in this town.
375	Reduce traffic especially to and from Naval bases. Encourage Navy to provide and encourage car pooling. Work on it !!!! Tired of the same old excuses.
376	Reduce traffic on 3rd and 4th with cut and cover underpass, at least across Orange
377	Reduce traffic on our streets
378	Reduced housing costs
379	Reducing overall noise
380	Reimagine Police; better treatment of the residents by the police; Police response to Covid on beaches especially Coronado Grand Caribe park was a disaster; police tickets countless mothers and their children at Silverstrand Elementary School for a wrong turn in morning traffic. Allowing alcohol on beaches would be a great plus. Opening all the parking lots at Silver Strand Beach. Traffic during rush hour needs
381	Rein in the Hotel Del from over developing and colonizing the beach in front of the hotel.
382	Reinstate the toll so that residents can actually have access to parking etc, instead of constantly fighting for space from visitors.
383	Reintroduce summer shuttle
384	Reject the SANDAG and State of California mandate to build high density low income housing on an already crowded island.
385	Relieve stress! Keep up the good fight with the Port/State to keep Coronado CORONADO!
386	Relieve traffic congestion. Make city streets more bicycle and pedestrian safer. Offer more public transportation perhaps trolleys?[?] Study possibility of fashioning main street cabo[?] of two hornets towns i.e. making busy zone of Orange Ave. a "walking street". have parking down the lanoling and offer "rides" or walking to Orange Ave.
387	Remove old trees on the city easement within residential areas and repair side walks.
388	renovate/ Improve underground infrastructure
389	reopen the Spreckels center
390	Repair 3rd & 4th.
391	Repair cracked sidewalks
392	Repair uneven sidewalks, decrease future density/numbers of condos being constructed on privately owned lotsAnd reduce amount of bridges traffic
393	Repairs to alleys as needed. The alley in the 700 block between C and Orange Ave is in poor condition.
394	Replace the school district administration
395	require lower motorcycle noise

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

396	Require low-income housing managers to allow tenant-installed air conditioning units. More active enforcement of noise complaints.
397	require more off street parking for new residential building
398	Required new builds or 2 story remodels to plant from an approved - non aggressive growing trees for privacy. It is terribly sad this is not a requirement. I am not anti growth or change or development But Please have new builds plant hedges/ trees that will give privacy to neighbors along back fences!
399	Restart pre-covid events/activities
400	Restrict replacing older homes with 4 - 8 apt buildings. Check car speed on local streets. Provide some light in local streets.
401	Restrict rezoning and proposing high density housing in the North Commercial Rezone, an area already experiencing significant impacts to city infrastructure, traffic, parking, the environment, and public health and safety. The city has identified several other areas in Coronado including ADU's on personal property, and military land for low income housing, that would provide a significant number of more housing units than is required to meet the 912 housing units mandated by the State and SANDAG.
402	Restrict the large volume of traffic, especially in spring and summer and reduce the over-building of our neighborhoods!!
403	Run the free bus shutte year round instead of just in the summer.
404	Safety - keep our neighborhoods safer from crime and speeding in the CAYS! Reduce taxes.
405	Security
406	Sewage spills
407	Sidewalk the pair of all residents with wheelchairs.
408	Slow down the dangerous traffic on 10th street and consider introduction of resident parking. My cat was killed on this street last year and there have been two major accidents involving children and cars directly outside my house. It is a race track for the rear base entrance, especially early in the morning which creates significant traffic noise. Plus with Buona Forchetta opening a couple of blocks away (that has very little required off-street parking) has put a strain on parking availability, pedestrian visibility and people fighting for spaces, which will only get worse as the pandemic ends and summer approaches. Please do a study or put in speed bumps or do something to slow down traffic on this street before someone gets killed, and evaluate options for resident parking in the areas on 10th close to Orange that have been impacted by increased business development. Also, please bring back kids swimming lessons at the community pool ASAP. My seven year olds can't swim safety yet and a whole generation of children will miss out on learning this vital life skill. Fall classes are not a popular option for small children due to lower air
409	Some streets are very dark at night. May be install some more lights.
410	Somehow make the prices of homes more affordable for the middle class
411	SPEAK THE TRUTH ABOUT THE YEAR-LONG "PANDEMIC" AND QUIT MANDATING MASKS AND CLOSED SMALL BUSINESSES & SCHOOLS!
412	Stay conservative and educated in as many areas of life, liberty and the pursuit of happiness.
413	Stop (yes you Mayor) stop the ever ending of building, plowing down anything so that the City can get more tax revenue. The City is changing in a very bad way, so that we are losing our identity
414	stop allowing high density / condo building in 'Coronado
415	Stop allowing so many houses and condos to be crammed on small lots. The overbuilding is really making the quality of life in Coronado deteriorate. When you cram four houses on a small lot, that is 8 more cars for that street (2 per unit average). More cars clog our streets and the houses crammed together really make quality of life less desirable here by blocking light and air and space. . We have been homeowners since 1998 and the worst thing Coronado does is allow over development, which crowds our community. We live between 9th and 10th on E. Within a two block radius, you can see multiple examples of cramming small condos on small lots and that just contributes to congestion in all of the surrounding streets. There are times when we talk about possibly leaving Coronado if the congestion and overdevelopment impacts quality of life more.
416	stop building and overdevelopment!
417	Stop building more homes

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

418	Stop building more houses! 4 houses replacing 1 house causes overcrowding & no parking. They cannot build qoot low income housing here. there is no space.
419	Stop building residential homes on top of each other we are too crowded.
420	Stop constructions and the noise of the cars is unbearable I live in the Shores and the motorcycles buses and sports cars is something to be addressed TO LOWER THE NOISE ESPECIALLY IN THE STOP LIGHT OF SILVER STRANDS AND LAS ARENAS! PLEASE ESPECIALLY I HAVE NOTICED THEY USE THIS AS A RACE TRACKI
421	Stop converting a single lot to a 3 house lot
422	Stop dividing lots & building more housing. We have no place to park as it is!
423	Stop frying us with 5G.
424	Stop increased residential density, whether lot split, vertical development, etc.
425	Stop massive apartment complexes from being developed
426	stop overdeveloping it.
427	Stop Overdevelopment and reduce density
428	stop the building of houses on 90percent of the property. there is no balance between environment and structure.
429	Stop the low income housing
430	stop the Navy traffic, require the Navy to stop single occupancy vehicle commuters, and provide mass transit for the Navy. But also, you MUST stop the pollution from Tijuana..I feel like we live in sewage, all the time!!
431	Stop the overbuilding
432	Stop using glyphosate/round-up products. Especially where children play (ie. Parks).
433	Strictly enforce the 25-day minimum for short term rentals!!!!!!
434	Strongly enforce traffic violations, including speeding BUSES (always speeding on Orange and rarely use their turn signals) and adding stop signs and crosswalks at intersections (e.g., 10th and F street and all along Ocean) to prevent children from getting hit by cars. Given that walking and biking are so integral to the charm and flow of the city, there should be a 4-way stop sign at ALL intersections.
435	Study and act on sea level rising
436	support diversity
437	Support housing opportunities that increase the diversity of our community, i.e. increase multi-family dwelling and housing availability to mid and lower income families.
438	Support in any way possible REDUCTION OF SEWAGE flow from the south!
439	Support moderate cost housing opportunities, both to allow for some diversity and to allow some of our kids to live here.
440	SUPPORT the 2nd Amendment! REDUCE gun control!
441	Support the building of The Winn at the Coronado Library!
442	Support the Coronado Cays better. We are a part of Coronado
443	SUPPORT THE EFFORT TO LIMIT THE SPREAD OF COVID 19
444	Supporting small businesses through these uncertain economic times, and beyond.
445	Take care of aging infrastructure across the city, including ease of pedestrian and bicycle use off the main roads that cross town.
446	Teenagers loitering in residential areas skateboarding especially.
447	Tell SANDAG to leave Coronado alone ... we have been built out since the late 20th century no additional housing should be added.
448	The city has residential areas with high value property which I am assuming generates lots of taxes yet the Coronado public library is one of the poorest libraries I have seen around the County and City of San Diego, it is an embarrassment and I don't see how the outdated material will support our youth or aging adults in the area, it also lacks reading diversity, such as material in Spanish or Japanese or any other language.
449	The city must already do it because i can't think of anything.
450	The city of Coronado can add more public parking.
451	The less government, the better!
452	The noise of Air plain, Ambulance and motorcycles

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

453	the quality of life in Coronado for year round residents come first
454	The skatepark is great, but the youth in Coronado need more options for safe and affordable recreation in town without harassment from the CPD. If the school grounds are closed, and the skatepark is closed, kids should not be reprimanded for skating, biking, scootering, or hanging out as long as property rules and noise levels are respected.
455	The vast influx of tourists to Coronado inhibits my enjoying our community. I don't know what could be done to reduce the volume of tourist visiting our town but I'd like to see more emphasis placed on the quality of life of our residents as opposed to catering to tourists.
456	There are far too many people that visit and park anywhere....blocking driveways and handicap access on the curb. Individuals riding their bikes on the sidewalks, especially Orange. I understand the importance of tourists but at times it feels like residents quality of life is compromised for the benefit of tourists. For my family Coronado is the perfect place to live but the traffic and volume of people visiting has increased to the point where certain areas of town are avoided, primarily on the weekends.
457	There is an urgent need to promote, accept and welcome diversity in our city. Thank you.
458	Think of the quality of life for the residents before putting our needs second to the tourism industry.
459	To pursue to actively engage citizens in various city events
460	To support a Trader Joe's here.
461	Total ban on bicycles, skateboards, roller blades, etc. from all sidewalks in town for anyone over the age of ten. For right now, I strongly urge enforcement of current laws regarding those modes of transportation in business district. We need uniformed officers walking beats for an hour or two each shift in the business area to inform violators to stop or to give them a ticket. Officers can park their car in the business district for 15 minutes and walk two blocks and interact with the violators. Might even work with the smoking in public ban or catching texters driving their cars while driving, parking, or coasting through stop signs.
462	traffic - use more circles
463	Traffic coming into Coronado between 5 am & 7 am is out of hand, loud music, speeding and transit on 2nd street which is not allowed. Police is not enforcing this traffic because is too early. Please help!! This matter needs attention.
464	Traffic control - keep military cars on 3rd, 4th, Pomona and something to help with tourists on bikes/ or walking with no clue about car traffic. Second - flooding issues.
465	Traffic control on First, Third, Fourth and Orange (lower the number of cars)
466	Traffic enforcement (speeding and running stop signs).
467	Traffic flow on Orange Avenue. Fine in the morning before 0700, then bad particularly at 6th and 10th
468	traffic issues. Close A, B, and C from Third Street
469	traffic light timing - people will not speed if the lights are timed, also they will not enter the side streets
470	Traffic management.
471	Traffic on and off the base. Excessive speeding throughout residential areas leading the back entrance to the base and noise associated with speeding cars.
472	traffic reduction
473	TRAFFIC SPEED & NOISE ON ALAMEDA BLVD IS OBNOXIOUS - IF YOU'RE OLD ENOUGH TO DRIVE YOU'RE OLD ENOUGH TO BE ACCOUNTABLE - TREAT RESIDENTS WITH RESPECT - STOP DRAG RACING & SPEEDING ESPECIALLY BETWEEN 8PM - 8AM - THE CITY POLICE NEED TO RESPECT RESIDENTS & ENFORCE COMMONSENSE RULES.
474	Traffic, reducing and preventing flooding, limit residential developments.
475	Traffic/Speed
476	Treat Coronado at residential community cut back attracting tourism.
477	TUNNEL FROM TOLL PLAZA TO NAS NORTH ISLAND.
478	Underground electrical
479	Underground the utilities already! Quit making excuses and get it done!
480	Underground unsightly power/utility lines
481	UNDERGROUND UTILITIES.
482	Underground utilities.
483	Undetermined.

Community Survey Verbatim Responses

Question: What is the single most important thing the City of Coronado could do to improve your quality of life?

484	Vehicle
485	Very happy with my quality of life and the City of Coronado does not reduce it nor need to improve it.
486	Visitors and military driving way to fast and running stop signs by ferry landing. When riding my kids to school in a bike trailer I feel somewhat safe but there's always a couple people that don't pay attention around orange and second street. It helps a lot to have the officers stop traffic for kids and people to cross on the way to my kids school. Also I've had two bikes locked up that have been stolen but that seems to be something that's unavoidable anywhere you choose to live.
487	WATCH THE POPULATION GROWTH - KEY ISSUE.
488	Water
489	We are very concerned about the proposed housing for the Smart and Final lot. It would add to the congestion and also we need to have a full service grocery store in addition to Vons.If I could have a secondary wish it would be to monitor the speed and noise of cars and motorcycles on First Street
490	We enjoy a really wonderful quality of life in Coronado and feel fortunate to be apart of this community. I am concerned about how the city will be able to manage the increased housing density that has been mandated by SANDAG. I'm mostly concerned about the impact on bridge traffic and straining the city's public and safety resources (e.g. schools, police, fire, EMT). I know the City has been working hard to have the housing allocation reduced, but have so far been unsuccessful. I would like to have a better understanding of how the housing issue will be addressed if the City has to create the additional units. Additionally, I have concerns about the impact climate change will have on the community. I don't have a clear understanding of what efforts Coronado is doing to reduce it's carbon footprint and prepare for rising
491	Widen sidewalk at beach so I can fit my stroller and dog without forcing others to walk in the street to get around us.
492	Work on how to get motorists to obey traffic speed limits and reduce speed limit in some areas.
493	Work to open up Coronado from Covid restrictions. Public places, parks, pools.
494	Work with Navy to reduce needlessly high noise levels of aircraft and base activities.
495	Year round childcare through CUSD
496	Youth rape crisis to minors under 16 y/o youth looting/hanging around Orange Ave.
497	Zoning...By allowing 4 units to be built on a lot that had one unit....Thats why the traffic and parking is terrible on streets not a sleepy town anywhere.
