

Locking Your Bike – Do's & Don'ts

Did you Know?

- An average of 23 bikes are **stolen** in Coronado per month.
- Leaving a bicycle lying on its side or blocking pedestrian traffic on a sidewalk is **prohibited** by California law (CVC Section 2120)

Here are some handy do's and don'ts to help keep our sidewalks safe and make sure thieves don't target your bike:

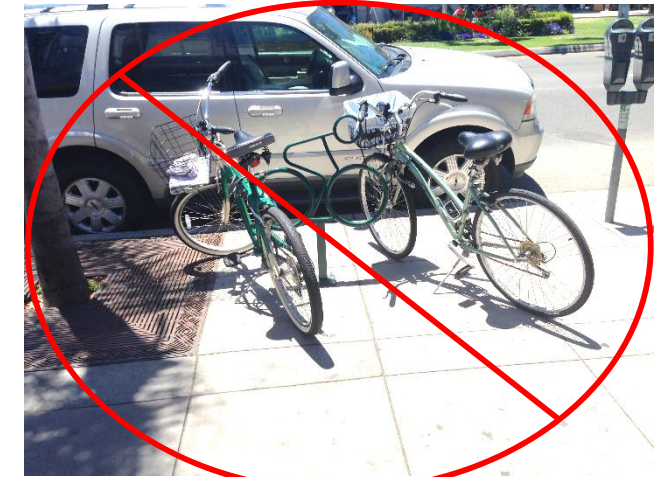

Lock your bike to a bike rack – for optimum security use a U-lock and lock your front tire and frame.

Don't leave bikes unlocked or in a position where they could fall over and cause a tripping hazard.

Park Your Bike Parallel & Centered on the Mini Bike-Shaped Racks to Support the Bike

Bikes Parked Perpendicular May Block the Sidewalk and Fall Over

Use Available Bike Racks to Help Prevent Bike Theft & Keep Sidewalk Clear

Don't Lock to Trees, Poles, Benches, or Leave Your Bike Unlocked – Use Bike Racks Instead

Place Front Wheel in Wheel Trough and Lock the Bike to the Locking Loop with a U-Lock.

Failure to Use Wheel Trough May Block Other Bikes and Pedestrians and Allow Bike To Be Knocked Over
