**PLANNING FEE SCHEDULE
(EFFECTIVE JULY 1, 2020)**

Amended March 17, 2019
by City Council Resolution 2020-07

On September 6, 2011, the City Council adopted Resolution No. 8500 establishing new Development User Fees for Planning, Building, Engineering and Public Services within the City of Coronado. The fees were based upon a City-Wide User Fee Study conducted by Chad Wholford & Associates. The Planning Fee Schedule became effective January 1, 2012 and will be adjusted annually by the Annual Average Consumer Price index for the San Diego Region beginning July 1, 2013 (with exceptions noted on the schedule).

The development user fees adhere to a general policy approach of full-cost recovery for these services. Full cost includes direct salaries and benefits, services and supplies, and indirect costs such as supervision and support, cross-department support, facility use, amortization of equipment, etc..

In those areas where there is some public benefit for a lower fee, a partial cost recovery fee was adopted. The Subsidized fees are denoted with a S next to the dollar figure on the attached fee schedule.

For those services that vary greatly in processing time from one application to another the City has elected to charge an itemized fee. Itemized fees (designated on the attached fee schedule by a **D** next to the dollar figure) require a deposit to be paid in the amount that is estimated to be the cost to process said application. During the course of providing the service, the cost may exceed the amount of the deposit(s) collected. If the deposit is insufficient to cover the actual cost to the City, the applicant shall be required to make additional deposits prior to work continuing on said application. The City shall provide the applicant an itemized accounting of all cost incurred for itemized fee applications. Any portion of the deposit remaining after the reduction for processing cost and overhead will be returned to the depositor.

Notes: The processing time periods are estimates from the date the City determines the application is complete and are subject to variables (e.g. appeals, litigation, background studies, etc.) that may contribute to an extended process period. These time periods are for the specific applications and do not include other permits and approvals that must be obtained from the City of Coronado or other agencies.

KEY:

- (1) An Initial Study determines whether an EIR is required. This time and fee estimate does not include the time and fee necessary to produce an EIR.
- (2) This process also includes Coastal Commission review.
- (3) The processing time would be concurrent with the other process.
- (4) These items may require additional CEQA or Coastal Act review.
- (5) These items may require a Local Coastal Program Amendment.
- (6) These items may require a Coastal Permit.
- (7) These items are processed concurrent with building plan check and subsidized planning applications are excluded from this fee.
- (8)* A \$77 Public Notice Fee is required in addition to the Planning Application fee to advertise the required Public Hearing. An Applicant may also be required to submit one or more sets of addressed and stamped envelopes to include the applicant, applicant's representative, and all property owners within a 300 foot radius of the parcel where the project is located. In addition, a summary list of said names and addresses may be required to be submitted. Note: In some instances such as appeals and historic alterations, a separate public notice fee is not required with an application.

* Public Hearing Notice Fee required (8).

D Deposit amount required.

S Indicates a subsidized fee.

ALL PERMITS, APPLICATIONS, AND ANY ITEM THAT WOULD BE REVIEWED BY THE CITY COUNCIL, PLANNING COMMISSION, DESIGN REVIEW COMMISSION OR THE HISTORIC RESOURCE COMMISSION REQUIRE AN ASSESSMENT FOR DIGITAL COPYING:
